

STIRLING GIN TASTING NOTES

In blending together our traditional and hand foraged botanicals, we have created a unique gin which explodes on the nose. A spirit which can be enjoyed neat over ice or equally enjoyable with a premium tonic or mixer of your choice. Add some torn basil and orange zest to create the perfect Stirling Gin serve.

Nose: Fresh, green and clean, with subtle undertones of herbaceous notes and Juniper.

Palate: Initial warmth from the heat of the nettles, with herbal depth increasing in intensity and a consistent subtlety of Juniper.

Finish: A long, slightly oily finish with a lingering citrus sweetness from the Orange oil
